

External review of the Balearic Agency for Quality Assurance in Higher Education (AQUIB) by ENQA

Annex I: TRIPARTITE TERMS OF REFERENCE BETWEEN AQUIB, ENQA AND EQAR September 2023

I. Background and context

The Balearic Agency for Quality Assurance in Higher Education (AQUIB) was formed as a consortium in 2002 by the Board of Directors, which adopted its first statutes. The Agency was recognized as an official body by the Autonomic Law 2/2003, of 20th of March, on institutional organisation of the Balearic Islands university system. According to autonomic and national laws, AQUIB is the competent official body for assuring the quality of the higher education system of the Balearic Islands. Its main aim is to proactively strengthen the quality of the higher education and research system of its Autonomous Community through assessment, certification and accreditation in the field of teaching, research, management and knowledge transfer, acting in line with international quality standards.

To effectively achieve this goal, AQUIB performs a variety of activities at different levels, which are subject to the Agency's core values including independence, transparency, integrity and social responsibility. Therefore, each evaluation commission and individual expert decides on an independent basis, without any external pressure.

In relation to AQUIB's activities, these are divided into three main areas:

- **External quality assurance:**
 - Accreditation renewal (ex-post accreditation) and follow-up of study programmes of the Balearic Islands. Their main goal is to monitor whether the study continues to implement the program as in its first accreditation and continues to cover its learning outcomes.
 - AQUIB also implements these actions in art study programmes, which work along the same lines. The ex-ante accreditation (verification) of art study programmes is performed by AQU Catalunya and coordinated by AQUIB as established in an agreement between both agencies.
 - DOCENTIA, which focuses on the institutional assessment of the university's own mechanism to ensure the quality of their teaching staff. This activity is performed by ANECA and coordinated by AQUIB as established in an agreement between both agencies.
 - Finally, if accepted as member of ENQA and registered in EQAR, AQUIB will be able to conduct ex-ante accreditations (verification) and modifications of study programmes in the Balearic Islands. Thus, AQUIB could potentially be the responsible body of the full accreditation cycle in the Balearic Islands. It must be noted that no work has been conducted to develop this activity yet.

- **Individual accreditation of teaching staff and researchers:**

- Evaluation and accreditation of the teaching figures established by Law. The Agency does not hire nor give funds to teaching staff. Notwithstanding this, it must be noted that AQUIB issues individual accreditation to each candidate. This accreditation is required in the recruitment calls of the University of the Balearic Islands. However, due to recent law changes in Spain, this activity has been currently paralysed. Specifically, the Organic Law 2/2023, of the University System, only enables agencies registered in EQAR for accrediting of teaching figures. Hence, this process has not been implemented in 2023.
- Assessment of applications from the teaching staff of the University eligible to receive three complementary payments established by Decree 7/2017, of 10th of February. Again, AQUIB only certifies the eligibility of the applicants to receive or not this complement and does not give any funds to the applicants.
- **R+D+I assessments:**
 - AQUIB assesses research projects and grant applications for different stakeholders who request this service in their calls.

AQUIB is active at a national level, collaborating with other Spanish agencies through the Spanish Quality Agencies Network (REACU). In addition, as adopted in a three-year strategic plan, the Agency intends to conduct an international evaluation programme. This programme will be implemented after successful application for full membership of ENQA and registration in EQAR.

AQUIB has been an affiliate of the European Association for Quality Assurance in Higher Education (ENQA) since March 2008 and is applying for ENQA membership.

AQUIB is applying for inclusion on the European Quality Assurance Register for Higher Education (EQAR).

2. Purpose and scope of the review

This review will evaluate the extent to which AQUIB (the agency) complies with each of the standards of Parts 2 and 3 of the *Standards and Guidelines for Quality Assurance in the European Higher Education Area* (ESG) and support the agency in its efforts to continually review and enhance its work. Such an external review is a requirement for agencies wishing to apply for ENQA membership and/or for EQAR registration.

2.1 Activities of the agency within the scope of the ESG

To apply for ENQA membership and EQAR registration, this review will analyse all of the agency's activities that fall within the scope of the ESG, e.g., reviews, audits, evaluations or accreditations of higher education institutions or programmes that relate to teaching and learning (and their relevant links to research and innovation). All activities are reviewed irrespective of geographic scope (within or outside the EHEA) or whether they are obligatory or voluntary in nature.

The following activities of the agency must be addressed in the external review:

- Ex-Post accreditation of study programmes
- Follow-up of study programmes
- Evaluation of Higher Education Institutions' teaching quality assessment systems (DOCENTIA) - This activity is coordinated by AQUIB, but performed by ANECA.
- Ex-ante accreditation (verification) of art study programmes - This activity is coordinated by AQUIB, but performed by AQU Catalunya.
- Ex-post accreditation of art study programmes - This activity is currently in the preliminary phase, since the protocol has been defined but not implemented.
- Follow-up of art study programmes - This activity is currently in the preliminary phase, since the protocol has been defined but not implemented.

While some activities, i.e., ex-post accreditation of art study programmes and follow-up of art study programmes, are not yet carried out, the activities should nevertheless be covered and assessed in the self-evaluation report and the external review report on the basis of available processes and documentation.

Should any substantive changes occur in AQUIB between now and the review (e.g., organisational changes, the introduction or changes of activities within or outside of the scope of the ESG), the agency should inform EQAR at its earliest convenience.

3. The review process

The review will be conducted following the methodology of ENQA Agency Reviews. The process is designed in line with the *Guidelines for ENQA Agency Reviews* and the requirements of the *EQAR Procedures for Applications*.

The review procedure consists of the following steps:

- Formulation of, and agreement on the Terms of Reference for the review between AQUIB, ENQA and EQAR (including publishing of the Terms of Reference on ENQA's website¹);
- Nomination and appointment of the review panel by ENQA;
- Notification of EQAR about the appointed panel;
- Self-assessment by the agency, including the preparation and publication of a self-assessment report;
- A site visit of the agency by the review panel;
- Preparation and completion of the final review report by the review panel;
- Scrutiny of the final review report by ENQA's Agency Review Committee;
- Publication of the final review report;
- A decision from the EQAR Register Committee on the agency's registration on EQAR;
- A decision from the ENQA Board on ENQA membership;
- Follow-up on the panel's recommendations to the agency, including a voluntary progress visit.

3.1 Nomination and appointment of the review panel

The review panel consists of four members: one or two quality assurance experts (at least one of which is currently employed by an ENQA member agency), an academic employed by a higher education institution, a student member, and potentially a labour market

¹ The agency is encouraged to publish the ToR on its website as well.

representative (if requested). One of the members serves as the chair of the review panel, and another member as a review secretary. For ENQA Agency Reviews at least one of the reviewers is an ENQA nominee (most often the QA professional[s]). At least one of the reviewers is appointed from the nominees of either the European University Association (EUA) or the European Association of Institutions in Higher Education (EURASHE), and the student member is always selected from among the ESU-nominated reviewers. If requested, the labour market representative may come from the Business Europe nominees or from ENQA. An additional panel member may be included in the panel at the request of the agency. In this case, an additional fee is charged to cover the reviewer's fee and travel expenses.

The panel will be supported by the ENQA Review Coordinator (an ENQA staff member) who will monitor the integrity of the process and ensure that ENQA's requirements are met throughout the process. The Review Coordinator will not be the secretary of the review and will not participate in the discussions during the site visit interviews.

Current members of the ENQA Board are not eligible to serve as reviewers.

ENQA will provide the agency with the proposed panel composition and the curricula vitarum of the panel members to establish that there are no known conflicts of interest. The reviewers will have to agree to a non-conflict of interest statement that is incorporated in their contract for the review of this agency.

3.2 Self-assessment by the agency, including the preparation of a self-assessment report

The agency is responsible for the execution and organisation of its own self-assessment process and must adhere to the following guidance:

- Self-assessment is organised as a project with a clearly defined schedule and includes all relevant internal and external stakeholders;
- The self-assessment report is expected to contain:
 - a brief description of the HE and QA system;
 - the history, profile, and activities of the agency;
 - a presentation of how the agency addresses each individual standard of Parts 2 and 3 of the ESG for each of the agency's external QA activities, with a brief, critical reflection on the presented facts;
 - opinions of stakeholders;
 - the instances of partial compliance noted in the most recent EQAR Register Committee decision of inclusion/renewal and any other aspects that may have been raised by the EQAR Register Committee in subsequent change report decisions (if relevant);
 - reference to the recommendations provided in the previous review and actions taken to meet those recommendations;
 - a SWOT analysis;
 - reflections on the agency's key challenges and areas for future development.
- All the agency's external QA activities (as defined under section 2.1) are described and their compliance with the ESG is analysed in the SAR.
- The report is well-structured, concise, and comprehensive. It clearly demonstrates the extent to which the agency performs its tasks of external quality assurance and meets the ESG.

The self-assessment report is submitted to the ENQA Secretariat, which has two weeks to carry out a screening. The purpose of a screening is to ensure that the self-assessment report is satisfactory for the consideration of the panel. The Secretariat will not judge the content of information itself but rather whether or not the necessary information, as outlined in the *Guidelines for ENQA Agency Reviews*, is present. If the self-assessment report does not contain the necessary information and fails to respect the requested form and content, the ENQA Secretariat reserves the right to ask for a revised version within two weeks.

The final version of the agency's self-assessment report is then submitted to the review panel a minimum of eight weeks prior to the site visit. The agency publishes the completed SAR on its website and sends the link to ENQA. ENQA will publish this link on its website as well.

3.3 A site visit by the review panel

The review panel will draft a proposal of the site visit schedule which must be submitted to the agency at least six weeks before the planned dates of the visit. The schedule is to include an indicative timetable of the meetings and other exercises to be undertaken by the review panel during the site visit, the duration of which is usually 2,5 days. The approved schedule must be given to the agency at least one month before the site visit to properly organise the requested interviews.

In advance of the site visit (ideally at least two weeks before the site visit), the panel will organise an obligatory online meeting with the agency. This meeting is held to ensure that the panel reaches a sufficient understanding of:

- The specific national/legal context in which the agency operates;
- The specific quality assurance system to which the agency belongs;
- The key characteristics of the agency's external QA activities.

The review panel will be assisted by the ENQA Review Coordinator during the site visit. The review coordinator will act as the panel's chief liaison with the agency, monitor the integrity of the review process and its consistency, and ensure that ENQA's overall expectations of the review are considered and met.

The site visit will close with a final debriefing meeting in which the panel outlines its general impressions and provides an overview of the judgement on the agency's ESG compliance. The panel will not comment on whether or not the agency would be granted/reconfirmed membership with ENQA or registration on EQAR.

3.4 Preparation and completion of the final review report

Based on the review panel's findings, the review secretary will draft the report in consultation with the review panel. The report will follow the purpose and scope of the review as defined under sections 2 and 2.1. It will also provide a clear rationale for the panel's findings concerning each standard of Parts 2 and 3 of the ESG. When preparing the report, the review panel should also bear in mind *EQAR's Policy on Use and Interpretation of the ESG for the European Register of Quality Assurance Agencies*² to ensure that the report

² Available at: <https://www.eqar.eu/about/official-documents/#use-and-interpretation-of-the-esg>

contains sufficient information for the Register Committee to consider the agency's application for registration on EQAR.

A draft will first be submitted to the ENQA Review Coordinator who will check the report for consistency, clarity, and language, and it will then be submitted to the agency – usually within 10 weeks of the site visit – for comment on factual accuracy and grave misunderstandings only. The agency will be given two weeks to do this and should not submit any additional material or documentation at this stage. Thereafter, the review panel will take into account the agency's feedback on possible factual errors and finalise and submit the review report to ENQA.

The report should be finalised within three months of the site visit and will normally not exceed 40-50 pages in length.

3.5. Publication of the report and a follow-up process

The agency will receive the review panel's report and publish it on its website once the Agency Review Committee has validated the report. The report will also be published on the ENQA website together with the statement of the Agency Review Committee validating external review reports by assessing the integrity of the review process and checking the quality and consistency of the reports. Importantly, during this process, and prior to final validation of the report, the Agency Review Committee has the option to request additional (documentary) evidence or clarification from the review panel, review coordinator or the agency if needed. The review report will be published on ENQA website regardless of the review outcome.

As part of the review's follow-up activities, the agency commits to react on the review recommendations and submit a follow-up report to ENQA within two years of the validation of the final external review report. The follow-up report will be published on the ENQA website.

The follow-up report may be complemented by an optional progress visit to the agency performed by two members of the original panel (whenever possible). The visit, which normally takes place 2-3 years after the verification of the final external review report (and after submission of the follow-up report), aims to offer an enhancement-oriented and strategically driven dialogue that ordinarily might be difficult to truly integrate in the compliance-focused site visit. The progress visit thus does not have the objective of checking the agency's ESG compliance or how the agency has followed up on the recommendations, but rather provides an arena for strategic conversations that allow the agency to reflect on its key challenges, opportunities, and priorities. Should the agency not wish to take advantage of this opportunity, it may opt out by informing the ENQA Review Coordinator about this.

4. Use of the report

ENQA will retain ownership of the report. The intellectual property of all works created by the review panel in connection with the review contract, including specifically any written reports, will be vested in ENQA.

The report is used as a basis for the Register Committee's decision on the agency's registration on EQAR. In the case of an unsuccessful application to EQAR, the report may

also be used by the ENQA Board to reach a conclusion on whether the agency can be admitted/reconfirmed as a member of ENQA. The review process is thus designed to serve two purposes. In any case, the review report should only be considered final after validation by the Agency Review Committee. After submission to ENQA but before validation by the ARC, the report may not be used or relied upon by the agency, the panel, or any third party and may not be disclosed without ENQA's prior written consent. The approval of the report is independent of the decision on EQAR registration or ENQA membership.

For the purposes of EQAR registration, the agency will submit the review report (once validated by the Agency Review Committee) to EQAR via email. The agency should also include its self-assessment report (in a PDF format), a Declaration of Honour, and any other documents that may be relevant for the application (i.e., annexes, statement to the review report, updates). EQAR is expected to consider the review report and the agency's application at its Register Committee meeting as stipulated in the indicative review schedule below and before the decision on ENQA membership by the ENQA Board.

To apply for ENQA membership, the agency is also requested to provide a letter addressed to the ENQA Board outlining its motivation for applying for membership and the ways in which the agency expects to contribute to the work and objectives of ENQA during its membership. This letter will be considered by the Board together with the confirmation of EQAR listing when deciding on the agency's membership. Should the agency not be granted the registration in EQAR or the registration is not renewed, the decision on ENQA membership will be taken based on the final review report, the application letter, and the statement from the Agency Review Committee. The decision on membership will be published on ENQA's website.

5. Indicative schedule of the review

Agreement on Terms of Reference	December 2023
Appointment of review panel members	February 2024
Self-assessment completed	1 March 2024
Screening of SAR by ENQA Review Coordinator	March 2024
Preparation of the site visit schedule and indicative timetable	May 2024
Briefing of review panel members	May 2024
Review panel site visit	June 2024
Draft of review report and its submission to ENQA Review Coordinator for verification of its compliance with the Guidelines	July 2024
Draft of review report to be sent for a factual check to the agency	August 2024
Agency statement on the draft report to the review panel (if necessary)	August 2024
Submission of the final report to ENQA	September 2024
Validation of the review report by the Agency Review Committee	Late September/October 2024
Publication of report	October 2024
EQAR Register Committee meeting and initial consideration	December 2024
Decision on ENQA membership by the ENQA Board	Early 2025
