

**Russian Register
launches a Call for International Evaluators**

QAA "Russian Register" is launching a Call for international evaluators who would be interested to participate to the external evaluations in the Russian Federation.

The evaluators will participate to the following types of activities:

- Review of the degree programme, teaching materials, local acts, university documents submitted by Universities as a part of their SAR;
- Site visit to the University (online in case the travelling is not allowed due to COVID-19 restrictions);
- Development of the External Evaluation Report.

Evaluators included in the Register participate in external evaluations of University Degree programmes, as the representatives of academic, student or professional communities, or as a QA-expert (a successful candidate can correspond to several categories).

The criteria applied in selecting international evaluators are the following:

A representative of academic community	QA-expert	A representative of professional community	A representative of student community
PhD or equivalent	Experience in university management for at least 5 years, including QA centers	Employment at professional affiliation at enterprises / industry / services, etc. for at least 5 years	A student at the university (at least 3 years of bachelor's degree)
Recognized teaching activity in their respective scientific field for at least 7 years			
Experience in external quality assurance in education (incl. international experience in external quality assurance in higher education);			
Fluent Russian for professional communication			
Domicile and institutional affiliation in a country other than the Russian Federation			

Interested candidates may email their CV and the list of publications to the following email address: rr-head@rusregister.ru. The structures of Russian Register will analyse the documents sent by the applicant. The decision will be communicated by Russian Register to the applicant at his/her e-mail.

This Call for International Evaluators is not limited by a due date. However, we kindly recommend that the applications to be submitted until 10 November 2021.
