Subject: GAC follow-up report to the 2022 ENQA review

Dear Olaf,

At its meeting on 13 September 2024, the Board of ENQA considered the follow-up report arising from the external review of the German Accreditation Council (GAC) in 2021.

The Board wishes to thank GAC for an update on its work following the external review, and specifically for reflecting on the remaining challenges in the sector overall. In this regard, the Board notes the activities related to the ESG 3.1 and urges the agency to continue its efforts in supporting the overall dialogue. With this, the Board takes note of the progress that has been made and approves the report.

We look forward to continuing the good cooperation between ENQA and GAC.

Yours sincerely,
