ENQA REVIEWERS' SEMINAR ON TARGETED REVIEWS

GORAN DAKOVIC, REVIEWS MANAGER

WELCOME AND INTRODUCTION

enqa.

BACKGROUND

- A need to continue providing something **meaningful** as part of a review process while **avoiding a possible evaluation fatigue**
- A need to provide for the **accountability** of quality assurance agencies
 - = Accountability and enhancement hand in hand, **tailored to the context of mature agencies**
 - = **Safeguarding the need for a cyclical provision of trust in the EHEA** through the reviews
- Different ≠ easier!
- Working group established in autumn 2020; approval by ENQA Board on 24 June 2021 and at EQAR Register Committee on 1-2 July 2021

BACKGROUND

- **Applicability:** agencies that have successfully undergone at least two full ESG reviews and have regularly reported on substantive changes
- To be used as an alternative every ten years (with a full review in between)
- Effective as of 1 July 2021, valid for EQAR registration and ENQA membership renewal
 - **ENQA membership renewal:** open to all ENQA member agencies who have been through at least two full ESG reviews and can be used as an alternative to a full review every ten years
 - **Registration in EQAR:** an option in the EQAR Procedures for Applications, with a condition (EQAR-registered agencies that renewed their registration successfully at least once previously may opt to apply for renewal of registration based on a targeted review every second time).

(IN)ELIGIBILITY

Agencies are not eligible if any **substantive changes were not duly reported**, or not reported on time, during the last 5-year registration period. If such substantive changes are not reported but identified after the targeted review, the agency's registration may be suspended, pending an extraordinary review of its registration.

Q&A
